About Me

I am a graduate of SMK Wikrama Bogor majoring in Software and Game Development, with a focus on full-stack development. I have experience in building and maintaining both backend and frontend systems to ensure the performance and functionality of websites.

Education

2022 - 2025 | SMK Wikrama Bogor | Software and Game Development

This program prepared students with skills in developing, managing, and optimizing software and interactive technologies, including programming, user interface design, game development, system security, and technology strategies.

Work Experience

2024 | Back-end Developer | PT Nawa Darsana Technologi

- Designed and developed APIs and database structures to support system requirements.
- Responsible for server-side operations, data management, and integration with the frontend through RESTful APIs.

2025 | Fullstack Developer | Freelance

- Developed a barbershop website end-to-end using Laravel for the backend and HTML, CSS, and JavaScript for the frontend.
- Built online booking features, barber schedule management, service listings, and customer transaction history.
- Designed and managed databases using MySQL.

Skills

- Microsoft Word
- Microsoft Excel
- Programming Languages: PHP, JavaScript, Golang, C#
- Frameworks: Laravel, React.js, Gin, ASP.NET Core
- Databases: PostgreSQL, MySQL
- Good Communication
- Effective Time Management
- Problem Solving
